Ikhlas Agbeti

Computer Science Student – Web Development & AI Automation

Bachelor's Year 1 student in Math & Computer Science at the University of Lille, after two years of a Software Engineering degree at IFRI, I am looking for a student job in web development and automation. Curious, autonomous and motivated, I have already completed several developer assignments (Next.js, WordPress, AI agents) and I am building solid skills in web development, algorithms and databases.

EDUCATION

Bachelor's Year 1, Math & Computer Science (in progress) 2026 – 2027
University of Lille, Faculty of Science and Technology, Lille
Resumed studies after two years in Software Engineering

Bachelor's in Software Engineering (Years 1–2) 2024 – 2026
Institut de Formation et de Recherche en Informatique (IFRI)

High School Diploma (Baccalauréat D) 2024

PROFESSIONAL EXPERIENCE

Frontend Developer May 2026 – Present
Cyberka, Paris
- Build and maintain frontend features with React: responsive, reusable UI components
- Integrate REST APIs and manage application state and data fetching on the client side
- Agile team work: Git workflow, code reviews, bug fixing, iterative feature delivery

Automation Developer Aug 2026 – Sept 2026
Zsquares Sol Inc, Dallas
- Deployed a WhatsApp AI agent that automatically handles 70% of customer requests
- Built an automatic newsletter-sending workflow, eliminating manual sends
- Automated repetitive customer-communication tasks using workflows, webhooks and AI agents

Developer Dec 2025 – Mar 2026
Comprint FR, Paris
- Developed and maintained client web applications with Next.js and WordPress
- Delivered responsive, user-friendly websites tailored to each client's needs

Automation Developer Jul 2025 – Sept 2025
Socialoop EU, London
- Collaborated with design teams to turn mockups into intuitive user interfaces
- Designed automations and AI agents: CRM agents, LinkedIn auto-publishing, assistants

PROJECTS

- **EfreeShop** – sale of components, templates and digital products
- **SpeedClip** – desktop app that finds, edits and publishes Twitch clips (Electron, React, Python)
- **PostFlow** – LinkedIn posts written by an AI agent in the user's style (Next.js, Express.js)
- **EtuDocs** – management of administrative records and requests (React, Express.js)
- **MedicaStock** – stock management for a pharmaceutical company (React, PHP)

AVAILABILITY

Evenings from 7 pm to midnight and every weekend
